

Solar e-newsletter 1

22nd November 2017

Hi all and welcome to our first Junee Community Power (JCP) Solar e-newsletter. It has been a slow and steady journey to get to this point. So let's get to the point. High electricity and gas prices are causing a lot of pain and suffering in our community. We all have a lot of work to do to deal with this, but the future looks really good if we put in some serious "hard yards", for the next few years, as a whole community.

Step 1

Join Junee Community Power. Not only to show your support but to help us support you. Check out our website for details on how to join [website address below].

Step 2

Come and see us at our stand at *Christmas on Broadway*, on Saturday 25th November, 4 to 9pm.

Step 3

Join us on Monday 28th November, yes next Monday, at 7pm, for half an hour at the Ex-Services Club, to see how we can help you buy quality solar PV panels and take greater control over your energy bills. No door-to-door sales people or unwanted phone calls. We have done the homework for you! Benefit from a group buying program to help you set yourself up for the future and save money.

Step 4

Buy a JCP gift card for someone dear to you, for Christmas, birthday or just to say thank you. Part of that gift will just keep on giving as it will be part of our Perpetual Fund. See our website for details.

Your JCP committee members have been working very hard for our community. So I personally want to thank them for their support and their time spent getting us to this point. It is a steep learning curve for all of us in this rapidly changing energy world.

Remember, this is a community project, keeping money in Junee. A kilowatt saved is a kilowatt you don't have to purchase, and a kilowatt you generate will benefit you and others.
